Attachment A is the current suggested draft of polygraph testimony for the Director of Security's appearance before the SSCI; it incorporates most of the suggestions made by DD/PSI and C/PD as contained in the original draft (Attachment 1); however, it is believed that polygraph statistics presented throughout the paper should remain (vs. DD/PSI's suggestion that they be deleted) since these statistics support the entire thrust of the paper, i.e., lend weight to the utility thesis of our polygraph program.

3-5: I have no great problem removing the number of polygraph examiners, but I do believe the percentage of adverse info resulting from various types of poly examination is very much a part of the story.
